

Exhibit B – CMS# 56260

Waxie Sanitary Supply – Discounts and Value Added Services

WAXIE offers the following value added services, and opportunities, specifically for State of Colorado price agreement.

1. Delivery
2. Online Ordering
3. Additional Discounts Possible
4. Green Partner Support
5. Consulting Services
6. Inventory Management
7. Cleaning Cost Analysis Program (CCPS).
8. Healthy High Performance Customer Communication Program Manual
9. Campus Care
10. Waxie APP Supply Chain Analysis Program
11. Repair Services
12. Equipment Rental (short term)
13. Equipment Leasing (long term, purchase)

1. **Delivery:** All orders in Colorado will be shipped FOB destination with no minimum order wherever Waxie trucks normally deliver.
 - a. **Waxie Delivery Zones.** Waxie's normal delivery area in Colorado is shown below. The zip codes included are listed on the attached spreadsheet.

- b. **Outside Delivery Zones.** Outside of our normal delivery area the following delivery charges apply.
 - Minimum order is \$400.00 minimum or a \$40.00 small order charge shall be applied as well as freight charges, on a freight prepaid and added basis.
 - The same pricing and delivery parameters shall prevail for any subcontractors Waxie utilizes for contract fulfillment in states where we do not operate.
 - Waxie will waive delivery charges for customers outside the normal delivery area if those customers that are willing to work with us on order size and delivery schedule.

2. **Online Ordering:** Web at work online ordering system that allows for the following at no charge.

- Real-time inventory levels at the appropriate shipping locations
- Real-time order status
- Accounts payable information
- Real-time open invoices
- Real-time paid invoices with detailed payment history and information
- Ability to research previous order information
- Ability to research product usage by ship-to and export data in excel, word or PDF format
- Ability to place orders online with secured checkout
- Custom shopping lists
- Access to MSDS 7/24
- Detailed product information including pictures and specifications
- Suggested alternate and replacement items
- Ability to have multiple order approval levels
- Multiple email confirmations
- Search and order by either customer item number or vendor item number
- Select multiple shipping locations by user
- Ability to utilize General Ledger numbers for each item
- Option to hide product pricing from specified users
- Budget control by month, annually, or by dollar limit.

Note: State of Colorado customers using Web at Work will be among the first to experience the new system upgrade in July 2013.

3. **Additional Discounts Possible:** There are a number of areas where customers and WAXIE can work together to reduce costs, prices, and the impact of the contracts fulfillment on the environment.

- **Waxie Brand Conversion:** Waxie is offering an additional discount for customers switching to Waxie branded cleaning products. An additional discount of up to 2% is available.
- **Minimum Order:** A minimum order dollar amount could be implemented that would reduce the number of transits dramatically. The largest contribution to environmental impact fulfillment of the contract has is the amount of fuel used to get product from our warehouses to our customers. WAXIE can provide detail regarding these impacts and would look to negotiate a pricing reduction if a minimum order is incorporated into the contract. Customers agreeing to a minimum order of \$400 can receive up to a 1% discount on all orders.
- **Scheduled Delivery:** Another effective way to impact costs is to work with customers to schedule delivery. For customers with large capacity warehouses this enables both WAXIE and the customer to best utilize their labor and capital resources. For instance our overall business sees 65-70% of product moved the first and last week of the month. We routinely work with large clients to schedule delivery during the slower periods of the week and month to optimize our labor and capital resources. WAXIE is interested in negotiating a price concession with the Colorado customer if the customer is willing to allow a scheduled delivery program to be part of this contract. Customers agreeing to schedule delivery, reduce the number of deliveries by half and agree to receive orders on a mutually beneficial schedule may receive up to a 1% additional discount on all orders.
- **Electronic Payment:** Automated Clearing House/Electronic Funds Transfer payment can substantially reduce the time between invoice and payment. Many public sector customers are able to work with these electronic invoice and payment systems and WAXIE is willing to negotiate an incentive for customers to use ACH/EFT payment. Customers that are able to use ACH for all invoice payments can receive up to a 1% discount for all purchases.

- **Green Products:** WAXIE is willing to provide an incentive for customers to “Go GREEN”. WAXIE promotes environmental stewardship within our own company and to our customers in all markets. WAXIE is willing to negotiate a price rebate or concessions to customers that meet GREEN spend goals agreed to with Waxie. Customers that agree to use only third party verified or dFe (EPA Designed for the Environment) cleaning chemicals, floor care, carpet care, toilet tissue, paper towels, napkins, and plastic can liners that meet either BPI (Biodegradable Products Institute), or SCS standards for compostability or recycled content, or use high density liners, can receive up to a 1% discount on all purchases.

4. **Green Partner Support.** Access to Waxie Green Partner Support program is free and available to all contract customers. You can visit GPS at <http://info.waxie.com/green/waxie-gps/>.

5. **Consulting Services.** Consulting services will be provided in the following areas, provided at no charge:

- a. Cleaning Chemical use and care provided through WAXIE Chemical Specialist and manufacturers’ representative.
- b. Equipment operation and maintenance training provided through WAXIE Equipment Specialist and manufacturers’ representative free of charge.
- c. Training and Education will be provided through WAXIE Sanitary Supply’s monthly seminars at each of our location, through online webinar and at the customer’s location.
- d. Product and other training services are conducted according to the customer’s needs, including off hours, and weekends, as necessary. To access training seminars or inquire about onsite training please call our Denver area or Colorado Springs Service Centers locations (see Item #4 above).
- e. Software punch out is available and WAXIE Sanitary Supply can integrate with most common systems. WAXIE can provide a long list of customers and integrators that we are successfully connected to via punch out.

6. **Inventory Management.** WAXIE can offer a complete vendor managed inventory program for customers using the State of Colorado price agreement. Customer storerooms would be serviced in the following manner: WAXIE employee would routinely visit each customer storeroom at weekly or monthly intervals, depending on the needs of the storeroom to assess inventory and order product to pre-established par levels.

The cost for this value added option is up to \$50 per storeroom management visit. Other options will be entertained based on the needs of the individual storerooms outside of these parameters, to be mutually agreed upon between WAXIE and the participating customer.

WAXIE will work with each customer individually to design a vendor managed inventory program that can meet their needs. Jointly planning the inventory management program allows for flexibility in application of fees applicable to each customers campus logistics, storeroom locations and ordering interval.

□
7. **Cleaning Cost Analysis Program (CCPS).** WAXIE Sanitary Supply, upon award of a minimum of 90% of a participating customer’s janitorial spend, will furnish the *Game Plan Program TM/MC* for Custodial Workforce Optimization to the customer, at no charge.

The *Game Plan TM/MC Program* is a comprehensive work loading package licensed to use independent area type and task standards developed by APPA (www.appa.org) as well as tasks developed by ISSA (www.issa.com) and leading consultants. In the market for over 15 years, the software is used internationally in more than 400 education, government, and healthcare institutions and building service contractors alike.

The *Game Plan TM/MC Program* is a simple, powerful tool for custodial workforce optimization. The cornerstones of this feature-rich management tool are workloading/work allocation, cost & labor estimation, inspection and reporting for continual optimization of processes and resources. The *Game Plan Program TM/MC* was developed to help custodial departments optimize labor in the face of budget constraints, headcount reductions, and an increasing understanding of the benefits of clean environments on student health and performance.

Some highlights of the program similar to CCAP:

- Extensive work loading capabilities
- Ability to generate printed work orders for routine and project tasks
- Calculates employee and budget needs
- Ability to track personnel records and management
- Chemical usage prediction and analysis
- Asset / equipment management
- Please see enclosed literature
- Highlights of Game Plan™/mc Program believed to exceed CCAP
- Contains full inspection capacity integrated with work loading application
- Gives the ability to run “what if” scenarios instantly onsite without the need for third-party participation
- Embedded APPA and ISSA industry standard cleaning frequency data to expedite input and analysis of cleaning activities
- APPA standardized five levels of clean integrated into the program so user can immediately see impact of higher/lower cleaning frequency on staffing levels.
- All reports are exportable to Word, Excel or PDF
- Inspection reports- detailed information that can be analyzed by zone, supervisor, employee and inspection criteria to make real time operational decisions.
- Multi-level, password protected user access ensures employees see only what they need to see, which eliminates potential tampering.
- Photo’s container: can house photos of buildings, floor plans, rooms, employees in application if needed.

The program is a comprehensive work-loading package licensed to use independent area type and task standards developed by APPA (www.appa.org) as well as tasks developed by ISSA (www.issa.com) and leading consultants. In the market for over 15 years, the software is used internationally in more than 400 education, government, and healthcare institutions and building service contractors alike.

Collection and uploading of each customer’s site data is not included in the offering. Customers may upload the data themselves or use an outside firm to do so.

8. **Healthy High Performance Customer Communication Program Manual.** Comprehensive communication program that supports your organization’s commitment to HHPC program with your internal customer, external customers and the public. Includes Press release, poster, newsletter, table tents and other templates designed to communicate your facilities commitment to sustainable cleaning. There is no charge for this program,
9. **Campus Care.** Campus Care is a comprehensive yet customizable set of programs designed to address the cleaning and labor management needs of K-12 and Higher Education institutions. It’s a flexible program in that individual end-users can select any or all program elements and tailors them to fit their individual needs and is provided at no charge.

The program is based four value pillars or customer hot buttons that speak marketplace trends: Sustainability, Cost Control, Safety, and Building Longevity. Colorado Support Team – Between WAXIE and JohnsonDiversey, a team of professionals will be available to support the State of Colorado, along with additional staff from both companies as needed. Complete analysis and consulting on all items used in the NCPA to streamline, economize and suggest alternatives based on the emerging needs of the campus. This includes, but is not limited to addressing all sustainability aspects, purchases from manufacturers from the minority business community, and mutually devising programs with NCPA, addressing most effective cleaning processes available from the industry.

10. **Waxie APP Supply Chain Analysis Program.** This program allows the customer’s procurement to assess and monitor the elements of the supply chain most important to them. This program is free of charge for State of Colorado contract customers.

11. **Repair Services.** State of Colorado customers will now be able to access repair service including preventive maintenance services. Labor and parts are ten percent (10%) off Waxie published list price. (Contact your Waxie representative for more information.)

Service Centers. Waxie has a service center in our Aurora, CO and Colorado Springs, CO locations. Hours of operation are 8 am to 5pm (MT). Each service center is fully equipped and staffed daily with access to local parts inventory between \$50,000 and \$250,000. Quick shipment of parts is available through most major participating manufacturers. Parts, specifications and repair instructions are all computerized for all manufacturers.

Outside repair services are handled by Windsor's national service program Tec-Serve. Customer Service Support staff is available by phone Monday-Friday 8am to 5pm (MT); however, the Sales Consultant is available 24/7/365 for emergency service, as needed. All Customer Service staff members have an assigned back up that is familiar with their assigned customers and able to assist.

Our Service Centers are located at:

Denver Area

2255 N Pagosa St Ste 100

Aurora, Co 80011

(800) 377.4128, Mon.-Fri., 8 am to 5 pm (MT), and after hours: 866-Tec-Serv

Colorado Springs

6260 Omaha Blvd

Co Springs, Co 80915

Call: (800) 448.5195 Mon.-Fri., 8 am to 5 pm (MT), and after hours 866-Tec-Serv

12. **Equipment Rental** (short term). *Note: This service may added at a later date.*
13. **Equipment Leasing** (long term, purchase) (optional). *Note: This service may added at a later date.*
