

Geotab Equipment Order Form

SFM has begun the 4-year roll out of Geotab telematics to specific Fleet vehicles (your agency will be notified when your vehicles are added to the schedule). If your agency would like to purchase telematics ahead of SFM's roll out schedule, or purchase equipment or services outside of the basic Geotab service, your agency is responsible for all associated costs; i.e. all equipment, installation, data, and service fees will be billed back to your agency. Since SFM is the account holder, this form must be completed and signed before placing your order.

Contact Name: _____

Cabinet: _____

Dept/Unit: _____

Email: _____

Phone #: _____

Shipping Address: _____

(This is where the equipment will be shipped)

Order Details

Date: _____

| Qty | Item Description | Price | Equipment or Service |
|-----|------------------|-------|----------------------|
| | | | |
| | | | |
| | | | |
| | | | |
| | | | |
| | | | |

**If the equipment also incurs a recurring charge for service, ensure the service and equipment are on separate lines above and please complete the below table. SFM requires the information of the vehicle(s) that will incur monthly charges. If more space is needed, please include a spreadsheet listing the service item description, plate and asset number of the vehicle being billed for the service of the additional equipment.

| Service Item Description | Plate | Asset |
|--------------------------|-------|-------|
| | | |
| | | |
| | | |
| | | |
| | | |
| | | |

Approval Signature: _____

Date: _____

Please initial the below statement, indicating acknowledgement:

_____ I understand this equipment and any subsequent recurring charges will be billed to State Fleet Management initially and SFM will, in turn, bill my agency for both equipment and any recurring charges.

All fields in red are required. Any forms with missing information will be returned to the initiator.

All orders should be submitted to Anthony Daher (Anthony.Daher@t-mobile.com), Jeremy Cost
