3% above average

BUILT-IN INTELLIGENCE FOR THE VEHICLES YOU DRIVE

Connected intelligence that grows with your business

Optimize your fleet today by improving productivity, reducing costs and enhancing driver safety. Telogis Fleet is based on the only connected intelligence platform and complete fleet management service that scales to fleets of all sizes.

With one login, Telogis Fleet allows you to get real-time location and status of all assets on one dashboard. With full fleet metrics, maintenance scheduling, instant alerts and reports, you can immediately understand trends such as idling, driver behavior and reduce fuel and maintenance costs.

RUNNING A MIXED FLEET?

If your fleet includes a variety of makes and models or heavy equipment, you can still manage them all on the same Telogis platform.

COMPREHENSIVE FLEET MANAGEMENT
From location to vehicle health, driver coaching, maintenance alerts and more

COMPLETE VISIBILITY
Gain insights into your vehicles and drivers, even manage routes based on traffic and weather

SAFETY AND FUEL
Use data and tools to improve driver behavior and integrate fuel usage information to reduce costs

POWERFUL ANALYTICS
Access reports, dashboards and trends

Telogis Fleet Combined With OnStar

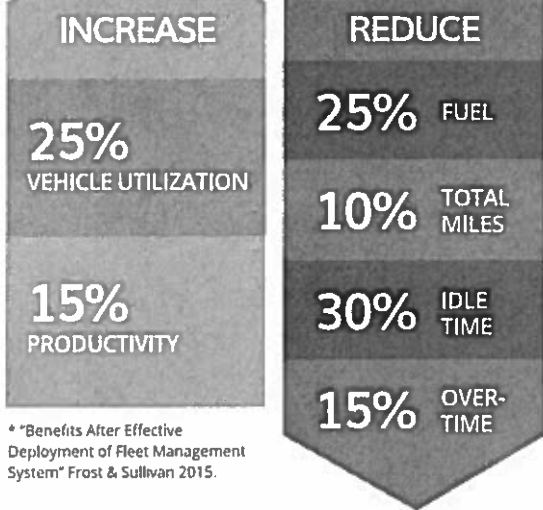

Built-In OnStar Hardware
Subscription not required

By leveraging the OnStar hardware built into your GM vehicle, location and vehicle data can be collected, stored and processed using the Telogis platform

- **Cost-Effective** - Built-in hardware (no installation or hardware required)
- **Remote Services** - Remotely start engine, lock/unlock doors, activate horn and lights
- **Broad Vehicle Coverage** - Available in most GM vehicles (2015 and newer) that come with OnStar
- **Exclusive Insights** - Vehicle health and diagnostics data with vehicles equipped with OnStar hardware

ROI BENEFITS OF A CONNECTED FLEET

* **Benefits After Effective Deployment of Fleet Management System* Frost & Sullivan 2015.

THE PATH TO GROWTH

WE'VE GOT YOU COVERED FROM DAY ONE

Find out how to leverage the rest of the Telogis platform

When your fleet expands.

Take advantage of enhancements such as:

Fuel Cards

Control fuel costs and monitor fuel trends

In-cab Alerts

Notifies drivers when they are not driving safely

Coach

Proactive driver scoring and coaching helps inspire safe driving

When you're ready to transform to a fully connected business.

Give business stakeholders the right tools to be successful with:

Scheduling

Choose the most cost effective time to book a new job

Mobile

Connect workers in the field to their back office with a handheld application

Route Planning

Optimize multiple stops within custom constraints

Get started today

Telogis Fleet for GM is a cloud-based technology that uses real-time data to help fleet owners reduce costs, enhance driver safety, access vehicle diagnostics remotely and more.

IMPROVE PRODUCTIVITY

with visibility into your drivers' workdays

Vehicle location

Remote engine start

Real-time alerts

Over-time

Utilization

Time on site

REDUCE COSTS
